CUSTOMIZED PRODUCTION

- Stryvo manufactures a wide range of product to the oil & gas industry – topside and subsea
- Our team of engineers and our production staff are highly skilled and have long experience.
- We deliver products to international clients world wide.
- Stryvo has high expertise in engineering, procurement, construction, and management (EPCM)
- The products can be delivered ready tested and certified in accordance with NORSOK or any other offshore standards.
- We deliver complete documentation in accordance with the customer requirements
- Our organization is a flexible supplier that always aim to create added value for both Stryvo and their customers through product quality and accomplishment.
