STANDARD FILTERS AND CUSTOMIZED SOLUTIONS

- Stryvo supplies standard filters and customized solutions. Both manually operated and completely automated filters are within our product range.
- Stryvo have in-house design and project management: We build complete filter solutions that includes vessels, valves, instrumentation, instrument tubing, hoses, skids etc.
- Design and production are in accordance to NORSOK, PED (97/23 / EC), EU Directive 2006/42/EC on Machinery and applicable custom requirements. Stryvo currently holds a Quality Management System, which is certified according to NS-EN ISO 9001:2008 and NS-EN ISO 3834-2.
- Stryvo have a staff of well-qualified engineers who are using 3D-CAD technology and pressure vessel software for calculations, technical drawing, documentation etc.
- Stryvo have four high-tech workshops located in Norway. Each site produce filters and filter components. Our workshops are familiar with materials acc. to Nordsok, TR2000 and other customer material specifications.
- All our filters can be supplied in carbon steel, SS316, Duplex, Super-Duplex, 6MO, Titanium and GRP.
